

AFE AWARENESS DAY

Engagement Toolkit

RALLY YOUR TEAM, GET LOUD, AND SCORE BIG FOR AFE AWARENESS!

It's March Madness season and raising awareness for AFE is a team effort. Let's make some noise, spark conversations, shoot for donations, and drive life-saving change! Together, we can slam dunk AFE and bring hope to families worldwide!

Here is how you can join team #EndAFE:

- Post about AFE on social media to spread awareness.
- Pass your support by donating to drive life-saving research.
- Play your part by participating in our events and initiatives.

AFE Awareness Day is a day to unite our community to raise awareness, honor or remember our connection to the cause and inspire others to take meaningful action.

What is an Amniotic Fluid Embolism?

Amniotic fluid embolism (AFE) is a sudden and unexpected life-threatening birth complication that can affect both mother and baby. Although poorly understood, it is thought to be the result of an allergic-like reaction to the amniotic fluid that enters the mother's bloodstream, a normal part of the birth process. It most often occurs during labor or shortly after delivery.

Why Raise Awareness?

AFE affects an estimated 1 in 40,000 pregnancies. Even though it is considered rare, the CDC lists AFE as one of the top causes of maternal death. Most hospitals will not be prepared for a birth complication this severe, or even recognize the symptoms. Raising awareness is important not only for other mothers but for healthcare providers and hospitals to receive the education they need to **#ENDAFE**.

Key Messages

- Amniotic Fluid Embolism (AFE) involves sudden drops in blood pressure and oxygen levels and widespread blood clotting issues.
- AFE is rare, affecting about 1 in 40,000 pregnancies.
- Despite ongoing research, the exact cause of AFE is not fully understood, but it's believed to involve a strong immune reaction to amniotic fluid entering the mother's bloodstream.
- Treatment primarily focuses on providing supportive care.
- AFE is diagnosed by ruling out other possible conditions.
- Medical professionals, patients, and their families are encouraged to report cases to the AFE Registry.

Spread awareness using our unique hashtags, and key messages.

Invite Conversation

If you feel comfortable, share your AFE story in the caption with this graphic. Close your story with this call to action:

"In honor of AFE Awareness Day I am asking people to join me in making a donation to an organization that has helped us and is leading the efforts to make AFE preventable, predictable, treatable, and survivable. If you can't donate, please consider sharing this on social media to help us raise awareness."
